

TSHENOLO PEELE

Aspiring Data Scientist & Cybersecurity Professional

072 945 2045 | tshenolopeele11@gmail.com

[LinkedIn](#) | [GitHub](#) | [Portfolio / Virtual CV](#)

PROFILE

Motivated and disciplined individual with strong interpersonal, analytical, and problem-solving skills. Recognised for teamwork, reliability, and excellent time management. Highly adaptable, confident, and passionate about technology, data science, and cybersecurity, with hands-on project experience, strong academic achievement, and leadership potential.

EDUCATION

Bachelor of Science in Information Technology | North-West University 2024 – Present

- Relevant coursework: Software Development, Database Systems, Computer Networks, Data Structures, Artificial Intelligence, Systems Analysis, Data Analytics

National Senior Certificate | H.F Tlou High School Completed 2022

- Dux Learner – Grade 7 (2017 Academic Year)

CERTIFICATIONS

Introduction to Data Science | Cisco Networking Academy Completed 20 September 2025

Introduction to Cybersecurity | Cisco Networking Academy Completed 19 April 2025

Ethical Hacker | Cisco Networking Academy Completed 04 May 2025

TECHNICAL PROJECTS

Enterprise Network Design & Configuration | Cisco Packet Tracer 2025 — [GitHub Repository](#)

- Designed and configured a simulated multi-device network topology, including routers, switches, and end devices.
- Implemented IP addressing, VLANs, and routing configurations to enable reliable inter-device communication.
- Applied core networking and cybersecurity principles learned through Cisco Networking Academy coursework.

GBV Rehabilitation Information System | C# / Database Design 2025 — [GitHub Repository](#)

- Developed an information system to manage victims, counsellors, cases, and appointments for a gender-based violence rehabilitation service.
- Designed the underlying database structure and application logic in C# to keep records organised and accessible.
- Applied data integrity and privacy-conscious design principles appropriate for sensitive case information.

Fitness Tracker Application | C# / Visual Studio 2025 — [GitHub Repository](#)

- Built a desktop application in C# to log and track users' workouts and fitness progress over time.
- Designed the application's interface and underlying logic using object-oriented programming principles.
- Debugged and tested the application to ensure reliable performance across multiple use cases.

SKILLS

Technical

- C# (Visual Studio), Java, Python basics
- Oracle SQL & SQL Server, Database Design & Normalisation
- Cisco Packet Tracer, Networking fundamentals
- Cybersecurity fundamentals
- Data Science fundamentals
- Microsoft Office Suite & Google Workspace

Interpersonal

- Excellent communication and teamwork abilities
- Reliable, punctual, and organised
- Strong critical thinking and problem-solving skills
- Adaptable and open to new technologies

CURRENTLY LEARNING

Cybersecurity | Cloud Computing | Artificial Intelligence | Advanced Web Development
